DVI Inverter Box Setup Guide

Package Contents:

- DVI Inverter Box
- Power Supply
- International Plug Adapters
- DVI Cable

Instructions for use with Planar StereoMirror™ monitors:

1. Plug one end of the DVI cable into the graphics card and the other end to the DVI Inverter Box connector labeled "IN".
2. Plug one end of the second DVI cable into the DVI Inverter Box connector labeled "OUT" and the other end into the top monitor of the StereoMirror™ monitor.
3. Plug the DC power supply into the DVI Inverter Box connector labeled "5V DC" and the appropriate plug into an outlet.
4. An LED indicator light will be on when the DVI Inverter Box has power.
